B. This data set consists of release requests satisfying the following criteria:

- 1. **Date:** Reported/arrived in calendar years 2017, 2018 and 2019.
- 2. **Shipment Type:** A shipment is represented by a primary cargo report or a house bill (secondary cargo report) with non-consolidated cargo, i.e. Consolidated Freight Indicator = "No".
 - a. A primary cargo report or a house bill with consolidated cargo requires the submission of a house bill for each individual cargo within the consolidated cargo by the consolidating freight forwarders.
- 3. **Mode of Transport:** "Highway".
- 4. **Border Crossing:** This is the First Port of Arrival.

 - b. A cargo report can contain multiple cargo items with different dangerous goods classes.
 - c. As a result, Port subtotals in the "By Port by Class" table could be different from those in the "By Port" table.
- 6. **Shipment Volume:** Due to system/data issues, we are not able to provide the data at this time.
